

FAMILY HISTORY SOCIETY OF ROCKINGHAM & DISTRICTS INC.

Tracing your ancestors world-wide

GUEST SPEAKER—LEON DALY **MONTHLY MEETING** **SATURDAY 3rd FEBRUARY 2018**

DNA, The Test and Then What

Leon has been a member of the Family History Society of Rockingham & Districts since 2001 and is its current Treasurer.

His ancestors arrived in Australia during the 1850's and 1860s to Victoria and South Australia from England, Ireland & Scotland.

His family history research interest was sparked by a visit to family in the late 1990's but was not acted on until 2001.

Leon has activated a DNA test, sent off the sample and received notification of its completion. He has not done any research nor even viewed the test result. How did he reach this point? Watch as he unveils his own general DNA results, then explores what can be done to further his genealogy research using the resulting data. This is intended to be an introduction at the basic level on activating a test then considers and demonstrates some options that are available once the test results are in.

This is not intended to be an in-depth discussion or analysis on DNA research.
